

CAPABILITY STATEMENT

CORE COMPETENCIES

Professional Toxicology Services, Inc. is staffed by knowledgeable, friendly and responsive drug testing experts. Our specialties are providing an On-Site Proficiency Program, Blind Quality Controls, Bluing products, Specimen Collections and Breath Alcohol Testing.

- **Bottled Products**
 - **Synthetic Urine & Oral Fluids**- Perfect for performing daily quality control on On-Site devices.
 - **On-Site Proficiency Program**-Specimens designed to meet State Regulations (where applicable) regarding quality control for on-site drug testing devices.
 - **Blind Performance Test Samples**- Used in meeting DOT, NRC and HHS regulations.
- **Bluing Products**
 - **STAT-Blue tablet, powder and liquid**- Used for drug testing and DOT, NRC and HHS compliance. Also great for leak detection.
- **Professional Specimen Collections and Breath Alcohol Testing**
 - No matter where Professional Toxicology collects your employee's specimen, strict chain of custody procedures are used every step of the way to help ensure the integrity of your specimens.
